

What is claimed is:

1. A use of N-acetyl-D-glucosamine and pharmaceutical acceptable salts thereof in the manufacture of a medicament for treatment of urogenital tract infection.
2. The use according to claim 1, wherein said medicament is a formulation in the form for topical administration.
3. The use according to claim 2, wherein said medicament is a formulation in a form selected from a group consisting of lotion, aqua, emulsion, cream, ointment, and suppository.
4. The use according to any one of claims 1 to 3, wherein the daily dose of said medicament is 100 to 2000 mg of N-acetyl-D-glucosamine.
5. The use according to any one of claims 1 to 3, wherein the concentration of N-acetyl-D-glucosamine in said medicament is 0.1 to 10% by weight.
